Title: Chemokine Receptor 4 (CCR4) is a Promising Target for Development of New Tumor Immunotherapy

Ryuzo Ueda, M.D., Ph.D.
Professor Emeritus, Senior Adviser, Nagoya City University
Professor, Dept. of Tumor Immunology, Aichi Medical University, Japan

Speaker

Makoto Ogawa, M.D.
Emeritus President, Aichi Cancer Center, Japan

Chairman

Ryuzo Ueda, M.D., Ph.D.

EDUCATION:
1969: Nagoya University School of Medicine, M.D.
1969-1976: Clinical Fellow, Nagoya University School of Medicine, Nagoya
1976-1980: Research Fellow, Research Associate (1979), Memorial Sloan-Kettering Cancer Center, N.Y., USA

CURRENT POSITION:
2010- Professor Emeritus, Senior Adviser, Nagoya City University
2012- Professor, Dept. of Tumor Immunology, Aichi Medical University

SPECIALTIES AND FIELD OF INTEREST:
Specialty: Hematology and Medical Oncology
Field of Interest: Molecular Target Therapy for Cancer, Monoclonal Antibody Therapy
RECENT SELECTED ORIGINAL PAPER:

IAAO2012 Title of the Talk:

Chemokine Receptor 4 (CCR4) is a Promising Target for Development of New Tumor Immunotherapy
